

# UNMOVED BY ORGANIZED RELIGION?

We really want to tell you the good story! But first, we really have to tell you the bad story about the broken system that many know as church. A typical churchgoer reports, “**They pretend to preach the truth and we pretend to listen. It’s a shallow charade.**”

People fled to America for freedom of religion - freedom from manmade religion. They were fleeing from oppressive denominations in Europe, but the denominations all followed.

After hundreds of years and as many new sects, people are becoming increasingly dissatisfied with the judgmental and hypocritical religious establishment. Today’s formal churches look nothing like Jesus. They have excessive contempt and unloving attitudes toward those outside their clique.

## **There’s nowhere else to flee. We must take a stand!**

Manmade religion is consuming people’s focus, efforts, and resources with the traditions of men. Are they exploiting your money, time, and energy? Do you really want your resources squandered building the legacy of a man or a sect?

Organized religion is out of touch with reality. It’s going out of business because it fails to help people develop their gifts and become godly leaders. Nobody wants to depend on hypocrites to tell them what to think.

There’s a **spiritual revolution** afoot. Many people want to make a difference, but are ill-prepared because of the pervasive ‘leave-it-to-the-experts’ propaganda. This mentality has impacted society in a lot of negative ways; with families probably hurt the most.

The priesthood of all believers is a New Testament concept that is rarely emphasized by those whose paycheck or social status depends on unbiblical perceptions. These are usually the ones who are most aggressively opposed to the spiritual revolution.

## **We don’t want to build another sect. We want to build you.**

We enlist, enable, and encourage individuals and families to take responsibility for their spiritual growth rather than depending on ‘professionals’. Many of your relationships will be enhanced and you will be prepared to make a difference in your community and world.

The Jesus 4 King project provides thousands of man-hours worth of resources to help volunteers help themselves and others to grow spiritually and stay engaged/involved in meaningful work. We don’t charge so there’s no barrier for anyone.

Do you want to make a connection with God and better understand what you believe? Do you want to spend time with close friends and get encouraged and inspired to volunteer to help others? Enlist in the battle against biblical illiteracy and anti-Christian influences.

## **This may be a defining moment in your life!**
